

Goodnature

THE LARGEST COLD PRESS ON EARTH

*The Goodnature Maximizer
Industrial Juice Press*

THE NAME SAYS IT ALL.

Do you want maximum yield, maximum clarity, and maximum economy? Then you need the Maximizer. As the largest hydraulic cold pressed juice press available, the Maximizer is the industry leader and go-to choice for high-production, premium cold-pressed juice companies such as Odwalla, Naked, and Evolution Fresh. Companies focused on premium cider such as Martinelli's and Beak and Skiff also choose the Goodnature Maximizer for their juice extraction.

HIGH-PERFORMANCE

Up to 100 PSI producing clear juice with low suspended solids. No need for secondary filtration.

PRODUCE FLEXIBILITY

Press soft and hard veggies, leafy greens, most fruits and even nuts for plant based milks.

SCALABLE PRODUCTION

Modular setup with multiple units. One operator can operate up to four presses. Available with 12, 24, or 34 layers.

PRODUCE
1,500 Gallons
PER HOUR

MORE THAN
8,000 Bottles
PER DAY

The Maximizer is capable of producing up to 1,500 US gallons (5,700 liters) per hour, which is ideal for:
