X-6

SCALE UP YOUR JUICE BUSINESS

X-6 Commercial Juice Press Six Layer System

ALWAYS UP TO THE TASK.

The X-6 contains six X-1 sized press bags, ramping up your production for commercial juice and cider production. Producing 40 – 100 US Gallons per hour (150 – 380 Liters), the X-6 produces 320 – 800 twelve oz. bottles/hour. Used by cold press juice and cider producers, nutmilk producers, and kombucha producers world-wide.

PRODUCE FLEXIBILITY

Press soft and hard veggies, leafy greens, most fruits and even nuts for plant based milks.

PRODUCE
40-100 Gallons
PER HOUR
